## DOMINO'S INGREDIENTS & ALLERGEN INFORMATION

This document details which of the 14 allergens and their derivatives, as recognised by the Regulation (EU) No 1169/2011, are used in Domino's food:

**PEANUTS, NUTS, FISH, EGGS, CRUSTACEANS, SESAME SEEDS, MILK, SOYBEANS, CELERY, MUSTARD, LUPIN, MOLLUSCS, CEREALS containing GLUTEN, SULPHITES (>10PPM)**

Domino's food is freshly prepared in stores. Whilst we and our ingredients' suppliers do take precautions, we cannot 100% guarantee that any product is free from allergens due to the risk of cross-contamination. For Half & Half pizzas, there will be cross-contamination from allergens on both halves of the pizza. Please check the allergens for both halves before placing your order.

Our Gluten free pizzas are accredited by Coeliac UK and contain less than 20ppm gluten.

If you have an allergy, please inform your order taker before placing your order, and consult this guide each time you order, as we regularly update our allergen information.

Although great care has been taken to remove all bones from meat products and all stones from olives, some may remain.

Due to the on-going availability issues with sunflower oil, where it is used as an ingredient, we may need to occasionally substitute with rapeseed oil.

Due to the on-going limited availability of Free-Range egg we may at times need to substitute with alternative cage free eggs.
